The Agency Tula Armory building 76, office 304. Tel. 8 4872 345 - 15 - 67 The so-called consular legalization is one of the ways of legalization of documents in foreign economic activities. This method is similar to an apostille but is used in the document with the companies who originate from countries which did not participate in the Hague Convention abolishing the requirement of legalization of official documentation. Consular legalization of a complex bilateral procedure is much more complex in comparison with the apostille. Of course the consular legalization of documents is a complex procedure. She needed to confirm that send abroad the document complies with all the laws of the state which issued was a document. Legalization is accompanied by the gradual certification of the signature of the official and seal of the organization which employs the officer, given the structure of the administrative apparatus. Thus each document to be legalized must be certified by a notary certified signature of the notary certified by the seal of the Ministry of justice and signature of the authorized official and certified by the Consulate of the country which adopts the document. Not all organizations require a signaling of document. It is required only if the organization is interested in the legalization of a document is the type of documents which require proper legalization. Consular legalization of documents is quite a complex procedure execution of which is entrusted only to authorized persons.
