About the society Forums Examination The consumer Legal literacy campaign Regulations in the field of consumer protection Legislation International foreign law Reference information Links Price list of services Feedback Ozpp in social networks The outcome of this Convention was a significant simplification of the legalization procedure by the introduction of a special Apostille stamp - mark which certifies the official documents provided by the member countries of the Hague Convention. The apostille is affixed to documents which are authorized by state authorities. Using this signature stamp to certify the position and status of the person signing the document and authenticity of the stamps and seals which fasten an official document. According to the 1961 Convention, apostille is a square with a size of 9 cm which corresponds to a sample represented in the Convention. The apostille is prepared iliovasilema language represented in the Convention which defined French and English or in national language of the country which puts the apostille. In most cases the apostille is certified by the following documents - document of education or scientific title - notarial documents - judicial decisions - certificate of good conduct in family composition on income - commercial documents. For retyping the apostille is used only the originals. Also not required povtoryaemosti with apostille for recognition on the territory of countries-parties to the Convention. Put it on a blank spot at the bottom of the text, or on the reverse side of the document. Also there are cases when there is a need to put down the double apostille is placed on the first original and the second on the notarized translation of the document. When submitting the foreign documents in the CIS countries the apostille is not required as the Minsk Convention.
