

Legalization

Euro Space Network translation and legalization Legalization of a document is committing a number of specific formal procedures to make the document legal force on the territory of another state. The ultimate goal of the procedure of legalization of document issued in the territory of one state is the possibility of its presentation in official bodies of another state. Legalization procedure is applied if the documents to be presented for the territory of another state, it is impossible to put an apostille. The apostille is not affixed to documents in the case if the host state has not signed the Hague Convention of 5 October 1961. List of signatories to the Hague Convention However, some countries such as Italy require both the apostille and legalization. The apostille certifies the authenticity of the signature of the person signing the document. Legalization of translation, in turn, is required because the receiving party wants to be sure of the correctness of the resulting translation is necessary to confirm the identity of translation in the Consulate. Usually be legalized official documents such as various certificates issued by the Registrar certificates diplomas certificates of the contract and so on. Most commonly, the legalization is carried out for such countries as United Arab Emirates, Italy and Spain. We do legalization of documents for all countries in the period from 25 weeks discount may be applicable. The procedure of legalization of documents different from the procedure of apostilization. Consular legalization consists of several stages. Requirements to registration of documents from different countries may vary.
